

Full declaration of ingredients Spray-Wax

Binding agents:

- Based on the renewable plant raw materials: sunflower oil, soya oil and thistle oil

Waxes:

- Based on the renewable plant raw materials: carnauba wax and candelilla wax

Solvents:

- Aliphatic hydrocarbons = dearomatized white spirit (benzene-free)

Pigments: (tinted versions only)

- Mineral pigments on the basis of ore; titanium dioxide (white pigment) and iron oxides

Earth:

- Mineral origin, silica sand, dolomite and swelling clays (argillaceous rock)

The used mineral pigments and earths have been purified from all poisonous ingredients (e.g. heavy metals) and are physiologically safe.

Additives:

- Siccatives (are obtained from the respective minerals and are lead-free)
- Ketoximes
- Polysiloxanes (on basis of silicic acid)
- Polypropylene-Co-Polymer (3009 only)

The listed ingredients serve to regulate the drying process and to prevent film formation (5 years storage stability) and as a strong water repellent. And (in case of 3009) an anti-slip effect.

Osmo Spray-Wax does not contain biocides and no preservatives.

The dried finish is safe for humans, animals and plants (in compliance with the German Industrial Norm DIN 53160 (resistant to perspiration and saliva) and Euro Norm EN 71.3 (children's toys safety)).
